

DebConf in Canada

Montreal, August 5th-12th 2017

DebConf is the annual developers' conference of the Debian project, one of the largest Free Software projects worldwide. Debian is non-commercial and vendor-independent. DebConf allows developers from all over the world, who all volunteer their time, to gather once a year and concentrate on the development and improvement of the Debian distribution. In 2017, DebConf will be hosted in Montreal, Canada.
